

KATKAM PALLAVI

Hyderabad, Telangana

☎ 8340049694 ✉ katkampallavi38@gmail.com LinkedIn GitHub

Professional Summary

Aspiring Software Developer with strong proficiency in Python and Data Structures & Algorithms (DSA). Experienced in building scalable, data-driven web applications using Python and Django, with hands-on expertise in backend development using SQLite and frontend development using HTML, CSS, JavaScript, and Django Templates. Developed a PCOS Women's Health Web Application featuring secure authentication, symptom tracking, and lifestyle analysis. Familiar with NumPy, Pandas, Scikit-learn, TensorFlow, SQL databases, Git, Docker, and Jupyter Notebook, with practical exposure through a web development internship and national-level hackathon participation. Passionate about writing clean, efficient code and solving real-world problems.

Education

Guru Nanak Institute of Technology

B.Tech – Artificial Intelligence and Machine Learning (CSM)

Aug 2024 – May 2027

CGPA: 8.4 Hyderabad, Telangana

GPW Polytechnic

Diploma in Civil Engineering (DCE)

June 2021 – May 2024

CGPA: 9.87 Siddipet, Telangana

MJP School

Secondary School Education (SSC)

June 2015 – May 2021

CGPA: 10 Mavala, Adilabad

Experience

SkillCraft Technology

Web Development Intern (Offer Letter Verified)

Nov 2025

- Developed responsive web pages using HTML, CSS, and JavaScript following real-world development practices.
- Collaborated with mentors to understand frontend workflows, usability, and code structure.

Projects

PCOS Women Health Management System | Django, Python, SQLite, HTML, CSS, JavaScript

- Developed a full-stack web application focused on managing and analyzing PCOS-related women health data.
- Implemented backend logic using Django and Python with SQLite database for secure data storage and retrieval.
- Designed responsive frontend interfaces using HTML, CSS, JavaScript, and Django Templates.
- Integrated user authentication, form handling, and CRUD operations for health data management.
- Analyzed user-submitted health parameters to identify trends and provide structured health insights.

Technical Skills

Programming Languages: Python, SQL

Libraries & Frameworks: NumPy, Pandas, Scikit-learn, TensorFlow, Flask, Django, SQLite

Machine Learning: Regression, Classification, Clustering, Model Evaluation

Databases: MySQL, PostgreSQL, MongoDB

CS Core Knowledge: OOPS, Operating Systems, DBMS, Computer Networks

Tools: Git, Docker, Jupyter Notebook, VS Code

Certifications

Complete Master Python Programming: Beginner to Advanced

Udemy — 24.5 Hours

Nov 2025

Instructor: Srinivas Rao

2nd National Level Hackathon – HackArena (GenAI Theme)

IEEE GNIT

Certificate of Participation
